

apparatus. The broadcast information and the auxiliary information are then played back in an interlocked manner with a predetermined timing. As a result, a function to present information which can not be accommodated in a broadcast frame and a parental function can be implemented.--

REMARKS

The specification has been amended to correct errors of a typographical and grammatical nature.

The claims have also been amended to more clearly describe the features of the present invention, and the abstract has been replaced by a new abstract, thereby correcting errors of a grammatical nature and providing an abstract in proper format.

Also submitted herewith is a proposed amendment to the drawings, wherein Figs. 7 and 8 have been amended at this time. Upon receipt of the approval of the amendment to the drawings and receipt of a Notice of Allowance, the proposed drawing corrections will be effected in accordance with present practice.

Entry of the preliminary amendments and examination of the application is respectfully requested.

To the extent necessary, applicants petition for an extension of time under 37 CFR 1.136. Please charge any shortage in the fees due in connection with the filing of this

paper, including extension of time fees, to Deposit Account
No. 01-2135 (501.37519X00) and please credit any excess fees
to such deposit account.

Respectfully submitted,

Carl I. Brundidge
